GWRY PRODUCTS FEATURED AT MICHELLE KAUFMANN SHOWHOUSE

mkLotus™ Modular Home Debuts At West Coast Green Expo 2007

WHERE: San Francisco Civic Center Plaza

WHEN: Thu - Sat, Sept 20th - 22nd

Berkeley, CA, August 22, 2007 - *Green Waste Recycle Yard's* 100% recycled urban forest products will be featured in the *Sunset® Magazine* sponsored showcase of celebrated architect Michelle Kaufman's latest design, the first-ever *mkLotus™* modular home. The eco-friendly, prefabricated building will be on display September 20th - 22nd in San Francisco's Civic Center Plaza as part of the upcoming *West Coast Green Expo 2007*.

Green Waste Recycle Yard was selected to provide the retaining walls and infill mulch for the surrounding sustainable garden, designed by Nick Thayer of *Late Afternoon Garden Design*. As with all *Green Waste Recycle Yard* products, the milled lumber and *Treeincarnation™* mulch are made entirely from local urban forest trees that would otherwise have ended up in landfills. The lumber and mulch will be donated to charity and civic causes following the show.
